

Mr. Harvey—"Skipper" Harvey has been piloting us towards graduation through turbulent waters and calm.

Gerry Strumm—"Skippy" is "A" School leader. "Skip" is also in the band and orchestra and is a cheerleader. I'm sure she would make a good nurse. Aren't you?

Jim Skene—For all the noise Jim makes you can never tell if he's here or not. Jim has a secret weapon which he hopes will put him on the radio.

Ruth Bieber—This gal certainly has the gift of the gab, something we all admire. Though a nomad at heart, Ruth intends to wend her way to Business College.

Eleanor Boykowich—This lass is the founder of the "Gordie" fan club. Following this up Eleanor is going to be a sports reporter. Will she make it? That is the question.

Doug Bishop—"Bish" is "E" School leader and is our Athletic Council rep. Well known as a rugby and hockey star. "Bish," we trust, will soon be known as a Chemical Engineer.

Joan Brennan—Joni is an active lass, president of the N.N.S., a cheerleader and the mystery is that she still gets good marks. Feeling ill? Yes. Joni is to be a nurse too.

Art Darlington—Art adds life to a class with his quips and witticisms. He puts his rare talent to great use as can be seen in any issue of the N.C. Eye.

Bev Chertkow—Bev was once(?) heard to say, "Oh, but Mr. Harvey!" Bev has been interested in tennis for some time and was on the Nutana team. Best of luck at university.

Stewart Fraser—His football plays are so numerous, But put in action really humorous. Our room Secretary, Stew, is university bound.

Vina Deverou—Who is gigglingest girl in class? Vina!
Who those silly questions asked? Vina!
Who is our most unpredictable lass? Vina!

Derek Hill—"Word has it that we all have hidden talents. Why did they have to put mine down so deep?" Patience, pal!

Elsie Evanyshyn—This slim lass though never heard (even when she tries) is always seen. Our warning is varsity Ahoy!

Harry King—Got a problem? Harry is the fellow to see. He tries to help us all but is beginning to find this rather difficult. Always full of fun.

Alex Kortje—Who puts the spring in class 4A?
Walter and his squeeze box may
If he's not Engineering for his hay.

Helen Gessler—Helen has been holding up "A" School's end of the drama and public speaking for the last four years. When you add the two together it should equal one good lawyer.
