

# Class 4C

**Mr. PENLEY**

A big vote of thanks for being a wonderful home room teacher and for guiding our bird brains through four years of math. We're going to miss you.

**KEN LAWLEY**

This little man has one big desire in life, and that's to get lost amongst a maze of TV and radio tubes when he has graduated from radio college. Good luck, Ken, and don't forget to give 4C a cut rate on service calls.

**GERRY COUCH**

Friendly, witty, dependable, and pretty, too! Gerry is uncertain about future plans but we're sure she'll succeed in whatever she tries.

**JACK McCORKELL**

One of the few in 4C who listens to new math work and looks incredulous. Jack finds his success in geology and Engineering.

**ALVIN PAPROSKY**

Alvin has been one of the most popular boys in 4C and we know he'll be that at university. Medicine is particularly inviting to Alvin. Here's to health, wealth, and happiness.

**GORDON McKAY**

Our school leader who does a terrific job keeping C school spirit high and wowing the girls with his football prowess and good looks. Gord plans to take to the bar after the U. of S. Good luck in law, Gord.

**WALTER HALUSHKA**

Walter's two years in C school have shown him to be friendly and dependable. We all wish him luck in achieving his goal with the Department of Transport.

**KAY CAMERON**

Hermes, N.N.S., interform sports, and getting good marks are among Kay's varied activities. "Type B" arts and the teaching profession will be graced by her presence in future years.

**FRANCES DENNEY**

A member of the Nutana curling team, Frances will brighten Business College next year with her bubbling personality and beaming 'style.

**BOB BOKLASCHUK**

This amiable character, lovingly known as Boobchuk, was one of the pride and joys of the football team. Bob isn't sure which college he'll attend, but commerce seems to be appealing.

**GARY LAING**

One of the reasons 4C is well-known. This football player and manager of the boys' basketball team looks forward to either Teachers College or Engineering.

**VICTOR SKROMNY**

This tall, strong, good looking fellow is going to tussle with rocks around the world. Victor will branch into geological engineering at the U. of S.

**DEREK SMITH**

Our cafe man, Smitty is going to brew his coffee in a law office. He has trouble convincing people that a criminal lawyer doesn't have to be a crook. He is U. of S. bound. Lots of luck!

**MARILYN WHITEHEAD**

Wherever there's a burst of laughter you are sure to find Marilyn. Her future is undecided, but with her vivacious personality she'll make friends everywhere.

**RAY FURSE**

Ray, our all round athlete, isn't sure what he'll do next year, but we think his secret ambition is to be a professional wise-cracker.

**MURRAY COX**

This young man is going to major in Forestry; we know he has got what it takes to succeed. Murray's interests are wide, but, of course, they are only secondary to the old stand-bys: hard work, and French.
