

Class 4C

CAROL CHELSON

This pert 'n' pretty secretary of the Pauline Club plans to become the private secretary of some very fortunate boss.

BILL McNAUGHTON

All Bill wants to do is to get ahead in this world. I don't know what he's going to do with it when he gets it, but best of luck, anyway.

JOAN GILLESPIE

Besides curling and interform sports activities, Joan finds time to liven up our class. Next year will find her at Business College. Look out, bossman!

BOB CAMPBELL

Bob likes figures and plans to further his research into their foundations. Bob, keep your head in those accounting books, eh! May success smile your way, Robert!

DARRYL HOLMES

"Local hood makes good." That's our Darryl. He's planning to take Engineering next year, and we know that he will go far.

LYNNE HUME

Her sparkling personality and gay laugh will be an asset to this pretty girl, in medicine or law.

GARY WOODHEAD

A veteran of 4C combat, 'Woody' is our gymnastic expert. His future plans are indefinite. Maybe we'll find him selling refrigerators to the Eskimos.

STEWART GATES

When the lunch room is filled with rich, deep tones, it means that 4C's pride of the boys' chorus is at work. Stewart, however, does not plan to be Perry II; astro-physics is his line.

LEN DICK

Our happy reporter hopes to continue reporting the news after he takes a course in journalism. We won't forget your humor. Happy days with your typewriter.

DON BROWN

Don is 4C's mystery man. His past is a closely guarded secret. He is working hard, but to what goal no one knows. Good luck at whatever you do; we know you'll succeed.

ELIZABETH McFADYEN

When Liz speaks of becoming a lawyer, I know she's prepared to devote her life to the saving of MAN kind; cut rates for 4C, I hope.

HENRY LEE

If personality could speak, Henry would be heard above everyone else. He excels in the maths and sciences, so we're sure that the U. of S. will be getting a potentially great engineer.

ANDY HOGG

Andy never has trouble with the teacher; everyone sitting around him does. Andy doesn't know what he'll do to fill in time from now on, but he'll probably take Engineering.

BRUCE DAVIS

Being chosen top student of Nutana in grades nine, ten, and eleven predicts a bright future for Bruce in Commerce or Chemistry. Best of luck in everything!

ERNIE DAWSON

When Ernie finishes his law course at the U. of S., his first vow will be to liven up our courts as he has livened up Nutana. He's very interested in people—about half the world's population, I believe.

MYRNA HALSEY

Myrna, our pianist, is allergic to anything but A's. Future plans include a medical career. Anyone for a broken leg?
