

# Class 4E

**Mr. BENSON**

Always here in smiles and sorrow,  
Preparing us to meet tomorrow,  
We hope that in your memory,  
You'll find a place for our 4E!

**DIANE BILLINGS**

Cute and dark, and very nice,  
To our room she adds much spice,  
Teaching is her chosen career,  
For her success we have no fear.

**GEORGE HEBERT**

George's future is chemistry,  
A great success he's bound to be.  
Football, S. R. C., and such;  
For our great school, he has done  
much.

**JACKIE FOUND**

One of the busiest girls in N.C.  
Her social activities run sky high.  
A very good student and a friend  
to all,  
She'll enter the U. of A. in  
journalism this fall.

**ELAINE KUBIN**

Kind of shy, this little lass,  
But a credit to any class,  
And if next year, you try to  
reach her,  
You'll find her studying to be a  
teacher.

**JOEY BROWN**

Well here we are at 4E's clown,  
Everyone's laughing when he's  
around,  
A better guy there couldn't be,  
The best of luck at varsity.

**DAVE SINGER**

'Sing' is really quite a guy,  
With everyone he rates real high,  
Dentistry is his ambition,  
He'll be the top in his profession.

**ED HOUNSELL**

A love of music Eddie has,  
Really hep, when it comes to jazz.  
A top musician he will be,  
Overcoming all adversity.

**KEN HAIGHT**

This hockey star is the most,  
About him 4E does boast,  
Tough problems to him are tame,  
A medical career is his aim.

**MARLENE NICHOLAS**

Magic mirror on the wall,  
What's in store for this small  
doll?  
To Business College she will go,  
Where she'll meet success, I  
know.

**DOUG ROSS**

Dribble, dribble down the floor,  
He shoots! Oh well, try once more.  
Basketball, football, and Hi-Y.  
Makes him quite a busy guy.

**KITTY BUCHANAN**

Deep in my crystal ball,  
The future of this P.A. doll,  
Is mapped out for her to see,  
Why a teacher, she is bound to  
be!

**JERRY BADER**

We seldom see this handsome  
guy,  
Many a girl tries to catch his  
eye,  
To join the Navy is his desire,  
He plans to set the world afire.

**BOB AUSTIN**

Here's a guy with lots of style,  
Personality plus a friendly smile,  
To varsity this boy is bound,  
Among the successful, he'll surely  
be found.

**COLINA MORRISON**

A quiet member of 4E,  
Which is quite an oddity,  
A future Florence Nightingale,  
As a nurse she sure won't fail.

**BARRY EPSTEIN**

Another hundred—No surprise,  
He's an Einstein in disguise,  
To Chem. research in the fall,  
I see success in my crystal ball.
