

Class 4E

BOB MYERS

Our football hero who's on the beam,
We boast a star of the Hilltop team.
Always laughing, never sad,
An all around friendly lad.

CAROLYN SMITH

Dark-haired, daffy, and lots of fun,
She has personality by the ton,
All those interns will surely be hopping,
At the Varsity Hospital where Carolyn is stopping.

ED McCALLION

A guy like Ed you all should meet,
This future engineer can't be beat,
Friendly, courtèous, smartly dressed,
Certainly is the very best.

VERA DMYTRUK

This lass has, we all agree,
A real nice personality,
About her future she isn't sure,
Maybe a nurse, with patients to cure.

PAT THODE

I need no fortune teller's arts,
To tell you she's the queen of hearts,
As a teacher, she'll be the students' pick,
Sorry kids, she's reserved for Vic!

DOUG JOHNS

Doug is "E" school's capable "chief",
His chalk throwing talents are beyond belief;
He's off to college, I am hearing,
To study Chemical Engineering.

MARY ANN MORRIS

A brilliant girl, we all know,
Yet still with plenty looks to show,
In all activities she ranks high,
This gal is tops, that's not a lie.

MIRIAM LONGSTAFF

Head majorette in the Lions' Band,
They all step smartly to her command,
Riding, curling, keeps her hopping,
At Business College she'll be stopping.

CAROL AARON

This slim gem is the prize of our class,
A college grad to be;
Never frowning, is this lass,
But always full of glee.

DOROTHY SLATER

This jovial Miss is busy as a bee,
With Hermes, Hi-Y, and sports,
We all think that she's just tops,
Next year at Varsity we'll see Dot.

HELENE SENESHYN

Swimming, dancing, interform sports, too,
Are some of the things she likes to do,
She hasn't decided what she will be,
But we know she will do it successfully.

WAYNE READ

From out of town this boy did come,
We all agree he's lots of fun,
For all, it's very plain to see,
He'll make a real cool disc jokey.

JEAN MATHEWSON

The female Ken Watson of our room,
She sure knows how to use a broom,
A secretary she might be,
She'd look cute on the boss's knee.

JOHN PROCYSHEN

Confucius say about this lad,
He will be a college grad,
In Engineering his future lies,
John is one of our top guys.

MADELINE STAPLES

So quiet and serene,
A nicer gal we've never seen,
As a teacher she'll be great,
Her pupils have a lucky fate.

HANK LEE

Hank is more the quiet kind,
A better pal you'll never find,
We're glad to have him at the "Double Blue"
A jolly good fellow—good luck to you.
