

Dave Summers is known and avoided by teachers and other innocent bystanders. He was a Nutana Blues Footballer and enjoys thinking of himself as a Ladies Man. Next year the faculty of the College of Pharmacy will have the pleasure of doing business with Mr. Summers.

Laurie Teichroeb had her name on the honour roll (10) and was involved in intramural activities and yearbook advertising. Laurie plans to go into Cosmology.

Ron Thuen golfs, plays poker and drinks. Boone has a fear of barbers (nice haircut!). He intends to get a job after Grade 12.

Cindy Tymorouski enjoys figure skating, smoking (cigarettes), and weaving. She excels at being very quiet. Good luck with the future Cindy!

Evert Van Olst was on Jr. and Sr. Football and the honour roll in Grade 9 and 10. Little Ev plans to attend the College of Arts and Science after working for a year. Will he ever get his Datsun past 65?

Pat Walker has been involved with various activities throughout her career at Nutana, some of them within the school but most pertained to horses. She plans to enter Law. (Seen any wild pigs lately, Pat?)

Humphrey Tam was a member of our Sr. Basketball team through thick and thin. He has also been involved in interform and track and his name was on the honour roll (9-12). Humphrey will enter the College of Commerce in the fall.

Todd Thayer played hockey throughout high school, was on the SRC and won the Mr. Nutana Pageant in Grade 10. Fred finished at mid-term and now works at McKenzie and Thayer.

Don Tobin's greatest feat was fooling the entire Grade 12 English class by turning sideways, sticking out his tongue and impersonating a zipper. Really?

Kit Uhrich graduated at mid-term, just in time to pursue her education elsewhere: the Saskatoon Business College. Small town Kit became well known for her skill with a switchblade when she casually sliced open her finger.

John Van Olst was dedicated to the After 12 Com. this year but found time for hockey, fishing, women and the F.A.D.A. John plans to become a carpenter. He may end up building an ark.

Brenda Wallace tells us that her major accomplishment this year was riding with Frannie and surviving. She helped with Hermes Advertising last year and does devoted and unselfish work at the "Franquilizing" Centre.

Bea Van Olst is currently rewiring 747's at the airport. She spends the rest of her time at the bars getting herself wired. Cheers, Bea!

Jane Walker finished early and spent the remainder of the school year touring the States (sigh . . .) She lent her talent to our Sr. Girls Basketball team for 2½ years and played Jr. Volleyball as well. Jane's plans are for University this fall.

Elika Weil co-edited the Hermes Activities section and was one of the recipients of the Editor's Award for Beautiful Pages. The best question to ask might be: what wasn't she involved in? University in the U.S. is seen in Elika's future.
